Embracing Neurodiversity: Exploring the Role of an Online Support Group for Mandarin-Speaking Women Who Stutter in Resource-Limited Contexts

Ran An

Department of Communication Sciences and Disorders, Fort Hays State University

Hays, KS

Yan Ma

Department of Communication Sciences and Disorders, Purdue University Fort Wayne

Fort Wayne, IN

Jia Bin

Department of Communication Sciences and Disorders, Michigan State University

East Lansing, MI

Disclosures

Financial: Ran An, Yan Ma, and Jia Bin have reported no financial relationships to the content of this article.

Nonfinancial: Ran An is the founder and volunteer moderator of the women's online support group studied in this research. Ran An receives no financial compensation or other economic benefits from this role. While this involvement provided access and insights into the group's operations, steps were taken to ensure objectivity. The author's role as a founder and moderator could provide unique access and insights but might be perceived as a potential conflict. To mitigate this, the study followed strict ethical guidelines, ensuring data collection and analysis were conducted objectively. Jia Bin is a member of the same group. Yan Ma has reported no nonfinancial relationships to the content of this article.
